run is included. Clicking 'GET FILE' will result in download of the dll file from the source server."[Stroke mortality in France between 1960 and 2005]. The aim of this study was to describe the evolution of stroke mortality in France between 1960 and 2005. We used data from the French National Institute of Health and Medical Research (INSERM) and the French National Institute of Statistics and Demography (INED). Age-standardised mortality rates were calculated by sex, age and 5-year time periods. Age-standardised mortality rates for ischaemic stroke, intracerebral haemorrhage, and unclassified stroke decreased, whereas age-standardised mortality rates for subarachnoid haemorrhage increased. Mortality rates decreased with age for ischaemic and subarachnoid haemorrhages but increased in the case of intracerebral haemorrhage.// Copyright (c) Microsoft Corporation.
